Step 2 of 4: Enter Your Drugs

Please select the information (e.g. dosing frequency) as prescribed by your doctor. Failure to enter information consistent with your prescription may result in the display of inaccurate pricing information. For example, if you select a frequency greater than that prescribed by your doctor, it may result in the display of the full drug cost rather than the appropriate cost-sharing amount. This will help us estimate your costs and allow you to see which plans cover your drugs. The site doesn't show pricing for most over the counter drugs or diabetic supplies. For more information, you may contact the plan.
